News & Article Submissions

Press Releases

Send us your Press Release and, provided it is approved, it will be published live on the *Global SMT & Packaging* website and considered for publication in the magazine. Magazine space is limited, and priority is given to advertisers.

How to submit

Text should be in Microsoft Word format contained in the body of the email. Images should be 300dpi JPEG or TIFF format. Remember to include your full contact details and website URL. Send to news@globalsmt.net.

Technical Articles

Global SMT & Packaging seeks to publish the very best technical solutions and case studies in the field of electronics manufacturing.

Our Editorial Guidelines, which contain information on GS&P's 'house style' plus tips on how to make the most of your presentation, are available by emailing editor@globalsmt.net.

Papers are selected for publication on the following criteria:

- Do they offer a 'real' manufacturing solution?
- Is there sufficient evidence to reinforce the claim?
- Are there clear and reproducible graphics, charts and images available?
- Is the article unique, i.e. has it not been published in any other magazine or journal?

Display Advertising

Rates are based on the total number of insertions of any display size placed within any twelve month period, starting with the date of the first insertion.

Colour Rates - All rates are quoted for full colour advertisements using standard colours. Standard colours include: Cyan, Magenta, Yellow and Black. All other colours are taken from the four-colour process, unless a specific match colour is specified. Match colours are quoted separately on request.

Special Positions - Cover positions are sold on a first come, first served basis. Preferred positions can be requested by full page advertisers, subject to availability. Special positions are available adjacent to: contents page, regional news, first technical article, new products. Cost: 10% of page rate.

Production Services - Advertisements can be created from text, photographs and graphics supplied.

Mechanical Requirements

We prefer to receive files in high resolution (300dpi) Adobe® PDF format.

We also accept the following files:

- QuarkXpress®
- Adobe® InDesign
- Adobe® Photoshop (JPEG, EPS, TIFF)
- Adobe® Illustrator (EPS)

Images should be supplied at 300dpi, line art scanned at 1200dpi.

A colour printout or Acrobat® pdf file for proofing purposes should accompany all artwork that isn't submitted as PDF.

Submit artwork on CD or via Internet by email or FTP. Files under 5 Mb can be emailed to news@globalsmt.net. FTP file transfer details for larger files are available by request to news@globalsmt.net.

We no longer accept filmwork for publication.
